

Honeywell in Philippines

Honeywell is a Fortune 100 diversified technology and manufacturing leader, serving customers worldwide with aerospace products and services; control technologies for buildings, homes and industry; turbochargers; and specialty materials. Based in Morris Township, N.J., Honeywell's shares are traded on the New York, London and Chicago Stock Exchanges.

Today, Honeywell's Aerospace, Performance Materials and Technologies, and Automation and Control Solutions, are working closely with local distributors and dealers to provide products and services in the Philippines. In March 2003, Honeywell CEASA (Subic Bay) Company, Inc. was founded in the Philippines.

Honeywell's corporate social responsibility initiative, Honeywell Hometown Solutions, is an award-winning organization that focuses on five areas of vital importance to communities around the world: Science & Math Education, Family Safety & Security, Housing & Shelter, Habitat & Conservation, and Humanitarian Relief. Together with leading public and non-profit institutions, Honeywell has developed powerful programs to address these needs in the communities it serves.

Aerospace

- Honeywell Aerospace products and services are found on virtually every commercial, defense and space aircraft, and its turbochargers are used by nearly every automaker and truck manufacturer around the world. The Aerospace business unit develops innovative solutions for more fuel efficient automobiles and airplanes, more direct and on-time flights, safer flying and runway traffic, along with aircraft engines, cockpit and cabin electronics, wireless connectivity services, logistics and more. The business delivers safer, faster, and more efficient and comfortable transportation-related experiences worldwide.
- Honeywell CEASA (Subic Bay) Company, Inc. was founded in the Philippines as a subsidiary of Shanghai-based CEA Honeywell Aircraft Wheels and Brakes Repair and Overhaul Co. Ltd. ("CEASA"), of which Honeywell owns a 60 percent stake. The subsidiary provides maintenance, repair and overhaul facility for commercial aviation wheels and brakes.
- For automobile transport, Honeywell Transportation Systems (TS) is an industry leader developing technologies and innovations in turbocharging as well as braking materials. Honeywell Turbo Technologies is a leading automotive turbocharger supplier providing technology solutions to nearly every major automaker and truck manufacturer in the world. Honeywell turbo launches an average of 100 turbo applications a year and has nearly 500 in its development pipeline enabling fuel-saving and emission-reducing downsized turbocharged engines for passenger vehicles (gasoline, diesel, CNG, and hybrid), medium- and heavy-duty trucks, and off-highway, heavy-duty equipment. Honeywell supplies to original equipment manufacturers as well as the global automotive aftermarket.
- In the Philippines, TS sells its turbochargers through a specialized master distributor to serve the needs for installers to service and replace turbo chargers with original products. Honeywell also has a JV with Bosch which sells Bendix branded braking products into the service and replacement aftermarket through its channel partners.

Performance Materials and Technologies

- Honeywell Performance Materials and Technologies (PMT) is a global leader in developing advanced materials, process technologies and automation solutions. PMT's Advanced Materials businesses manufacture a wide variety of high-performance products, including environmentally friendlier refrigerants and materials used to manufacture end products such as bullet-resistant armor, nylon, computer chips and pharmaceutical packaging. Process technologies developed by PMT's UOP business form the foundation for most of the world's refiners, efficiently producing gasoline, diesel, jet fuel, petrochemicals and renewable fuels. PMT's Process Solutions business is a pioneer in automation control, instrumentation and services for the oil and gas, refining, pulp and paper, industrial power generation, chemicals and petrochemicals, biofuels, life sciences, and metals, minerals and mining industries.

Automation and Control Solutions

- Honeywell Automation and Control Solutions (ACS) offer a complete portfolio of innovative products, solutions and systems to create safer, more comfortable, more secure, more productive and more energy efficient environments at home and at work. ACS' seven businesses sell, manufacture and deliver products and services to consumers, businesses and industries in every region of the world. They include Environmental and Combustion Controls (ECC), Honeywell Building Solutions (HBS), Honeywell Fire Safety (HFS), Honeywell Industrial Safety (HIS), Honeywell Security Group (HSG), Honeywell Scanning & Mobility (HSM) and Sensing and Control (S&C). Its products, services and solutions help protect, control and automate 150 million homes, 10 million buildings, thousands of manufacturing and industrial plants, and 24 of the 25 top oil refineries in the world.

Honeywell Hometown Solutions

- As of 2015, eight middle school teachers from the Philippines have received scholarships to attend the Honeywell Educators @ Space Academy program at the U.S. Space & Rocket Center in Huntsville, Alabama. With a focus on science, technology, engineering and math, the training includes simulated astronaut-style exercises, laboratory and professional development, and space exploration.
- As of 2015, one high school students from the Philippines have participated in the Honeywell Leadership Challenge Academy program at the U.S. Space & Rocket Center in Huntsville, Alabama. This program is to encourage high school students from around the world to pursue STEM-related careers and learn about global STEM opportunities for their future.
- In 2012, eight Aerospace employees received financial assistance from the Honeywell Humanitarian Relief Fund during the 2012 Subic Bay flood disaster.
- Following the Typhoon Haiyan disaster that hit the Philippines on November 8, 2013, and displaced 4 million local people, Honeywell Humanitarian Relief Fund received \$151,000 in donations from than 1,800 employees that will be used for reconstruction of the Barbo Elementary School in Guiuan, a small coastal municipality located at the southeastern tip of Samar where Typhoon Haiyan first made landfall. The project is expected to be completed by May 2015.
