## HONEYWELL LAUNCHES 2014 GREEN BOOT CAMP PROGRAM

*Middle School Teachers May Apply to Join Interactive Workshop for  
New Techniques and Tools to Teach Energy and Sustainability*

**March 4, 2014** – Honeywell (NYSE: HON) announced the official launch of its global [2014 Green Boot Camp](#) program. Middle school teachers interested in teaching sustainability are encouraged to explore the opportunity to join a five-day workshop in San Diego, Calif. Selected teachers will attend the camp from June 22 to 27, 2014, and will receive sponsorship including travel and lodging, training curriculum, and instructional material to bring the learnings and related activities back to their classrooms. In 2013, 70 middle school teachers from 10 countries were selected to receive the scholarships.

[Honeywell Hometown Solutions](#), the company's corporate citizenship initiative, launched Green Boot Camp in 2009, focusing on best practice instruction methods for teaching energy, sustainability and environmental concepts. To date, 140 teachers from around the world have attended, each bringing unique perspectives on sustainability challenges and opportunities from their local regions. The program is hosted by Honeywell, and supported by [San Diego Gas & Electric](#) and the [California Center for Sustainable Energy](#). Its curriculum was developed by experts from Honeywell and the three San Diego organizations on behalf of middle school educators across the globe to emphasize project-based learning about renewable energy, water quality, solar and more.

“The importance of teaching sustainability is not unique to one country since environmental challenges are becoming a global concern,” Jim Bujold, president of Honeywell Southeast Asia (Malaysia, Singapore, Thailand and the Philippines). “We are glad to introduce Green Boot Camp to our region. It is a great opportunity for middle school teachers to work together, and share ideas and exercises to help future generations to understand the importance of sustainable development.”

To qualify, applicants must meet the following requirements:

## Honeywell Hometown Solutions – Green Boot Camp

- Have a good command of the English language (including listening, speaking and writing)
- Can finish the English application process online independently
- Teach at the middle school level

The deadline for completing the online application form is **March 14, 2014**. The online application is open to current middle school teachers from any teaching discipline.

Visit <http://www.honeywellinteract.com/greenbootcamp/> to access, complete and submit the online application form.
