We bring together the physical and digital worlds to tackle some of the toughest business and societal challenges. We specialize in the things that are critically connected. Beyond smartphones and laptops, we make the connections that keep cities working, planes flying, factories running, and workers safe.

HONEYWELL IN MALAYSIA
Connected, Integrated Technologies & Support, Improving Performance & Reducing Costs

MAKING KL A MORE CONNECTED BUSINESS HUB...
Since establishing our ASEAN HQ in Kuala Lumpur in 2017, we have invested over $500M and added 120+ executives to our staff. Further, we have developed stronger partnerships with various key industry members including PETRONAS, KLIA, AirAsia, Malaysia Airlines, Citibank, MIDA, InvestKL, MIGHT and many more.

OUR FOOTPRINT
1985
First Set-up Business

Honeywell Aerospace

Aero HBT PMT SPS

A new aftermarket HQ and a separate 21,000 square foot regional distribution center was established in Kuala Lumpur by the Honeywell Aerospace division in 2017. Further, a 220,000 square foot manufacturing facility in Penang produces avionic systems with repair and overhaul operations for commercial, business and military aircraft.

Honeywell Building Technologies

Honeywell’s Building Technologies focuses on building automation systems for Malaysia’s commercial and industrial facilities. Its local operations include Malaysia-based Honeywell’s Total Solutions (PTSD) and Citibank.

Honeywell’s Performance Materials and Technologies

Honeywell’s Performance Materials and Technologies provides engineering, design and fabrication services for its manufacturing facilities in Malaysia. Honeywell’s efforts are also beneficial in the field of palm biomass to heat and electricity conversion by Premium Renewable Energy.

Honeywell’s Safety and Productivity Solutions

Honeywell’s Safety and Productivity Solutions provides productivity and safety solutions for Malaysia’s oil, gas, and petrochemical industries. Their customers include Shell, Murphy Oil and ExxonMobil. The division’s switches and sensors are used in the nation’s medical and transportation industries. They have an electrical systems manufacturing facility in Selangor.

Developing the Next Malaysian Generation... For a Connected Workforce

Beyond business, Honeywell Hometown Solutions is an award-winning organization that focuses on areas of vital importance to the communities we serve. Together with leading public and non-profit institutions, Honeywell has developed powerful programs including programs that help promote and increase awareness on the importance of Science, Technology, Engineering and Maths (STEM) as well as the exciting career opportunities it creates. Other initiatives include efforts focused on humanitarian relief; habitat; conservation; family safety and security.

APPLICATION SCIENCE & MATH

Honeywell and the Exploratorium, San Francisco, California, has hosted more than 2,100 teachers from the 50 United States and 34 U.S. states since 2004; including more than 15 from Malaysia.

BETTER FAMILY SAFETY & SECURITY

In 2017, Honeywell and Safe Kids Malaysia launched the Safe Kids at Home Program in Kuala Lumpur. The program is free for all local students, and has been endorsed by the Ministry of Education and Ministry of Health Malaysia. For more information, visit our website.
