

## Manual HRA Profile Installation

**Step 1:** Go to <http://honeywell.com/sites/ipc/Pages/downloads.aspx>

**Step 2:** Click on the regional profile link and save it to the Desktop. Unzip/extract the file to your desktop.

### **HRA Regional Profiles**

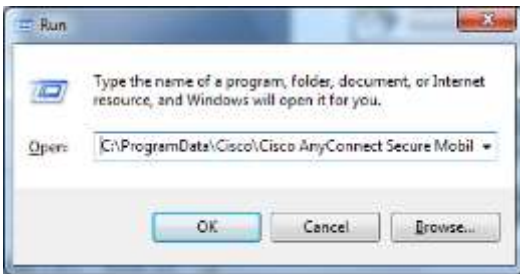

Note: Please read the Manual HRA Profile Installation Instruction below before downloading the regional profile

- ↓ US, CANLA Anyconnect Profile
- ↓ Asia-Pacific Anyconnect Profile
- ↓ EMEA Anyconnect Profile
- ↓ Australia Anyconnect Profile

**Step 3:** Copy the below mentioned path based on your Operating system and Click Start→Run, paste the path and Click Ok.

**Window XP** - %ALLUSERSPROFILE%\Application Data\Cisco\Cisco AnyConnect Secure Mobility Client\Profile

**Windows 7** – C:\ProgramData\Cisco\Cisco AnyConnect Secure Mobility Client\Profile

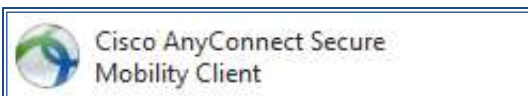

**Step 4:** Copy the extracted file and paste it on the above said location.

**Note:** Please do not overwrite the file (Delete the existing file and then paste the extracted file)

**Step 5:** Reboot the machine

**Step 6:** Launch Cisco Anyconnect and Click connect to establish VPN connectivity.
