HONEYWELL FORGE

THE HEALTHY CAMPUS

Optimize building health and reassure students and staff from the library to your offices.

Honeywell Forge Buildings

UNDERSTANDING YOUR
HEALTHY BUILDING SCORE

Honeywell Forge integrates building controls, air quality sensors, video feeds and secure access points then applies advanced analytics to calculate a simple, real–time Healthy Building Score. From a single building to a global campus, this score helps leadership guide processes, protect compliance and keep learners learning. Leaders can also display scores publicly to help students and staff feel comfortable – everywhere.
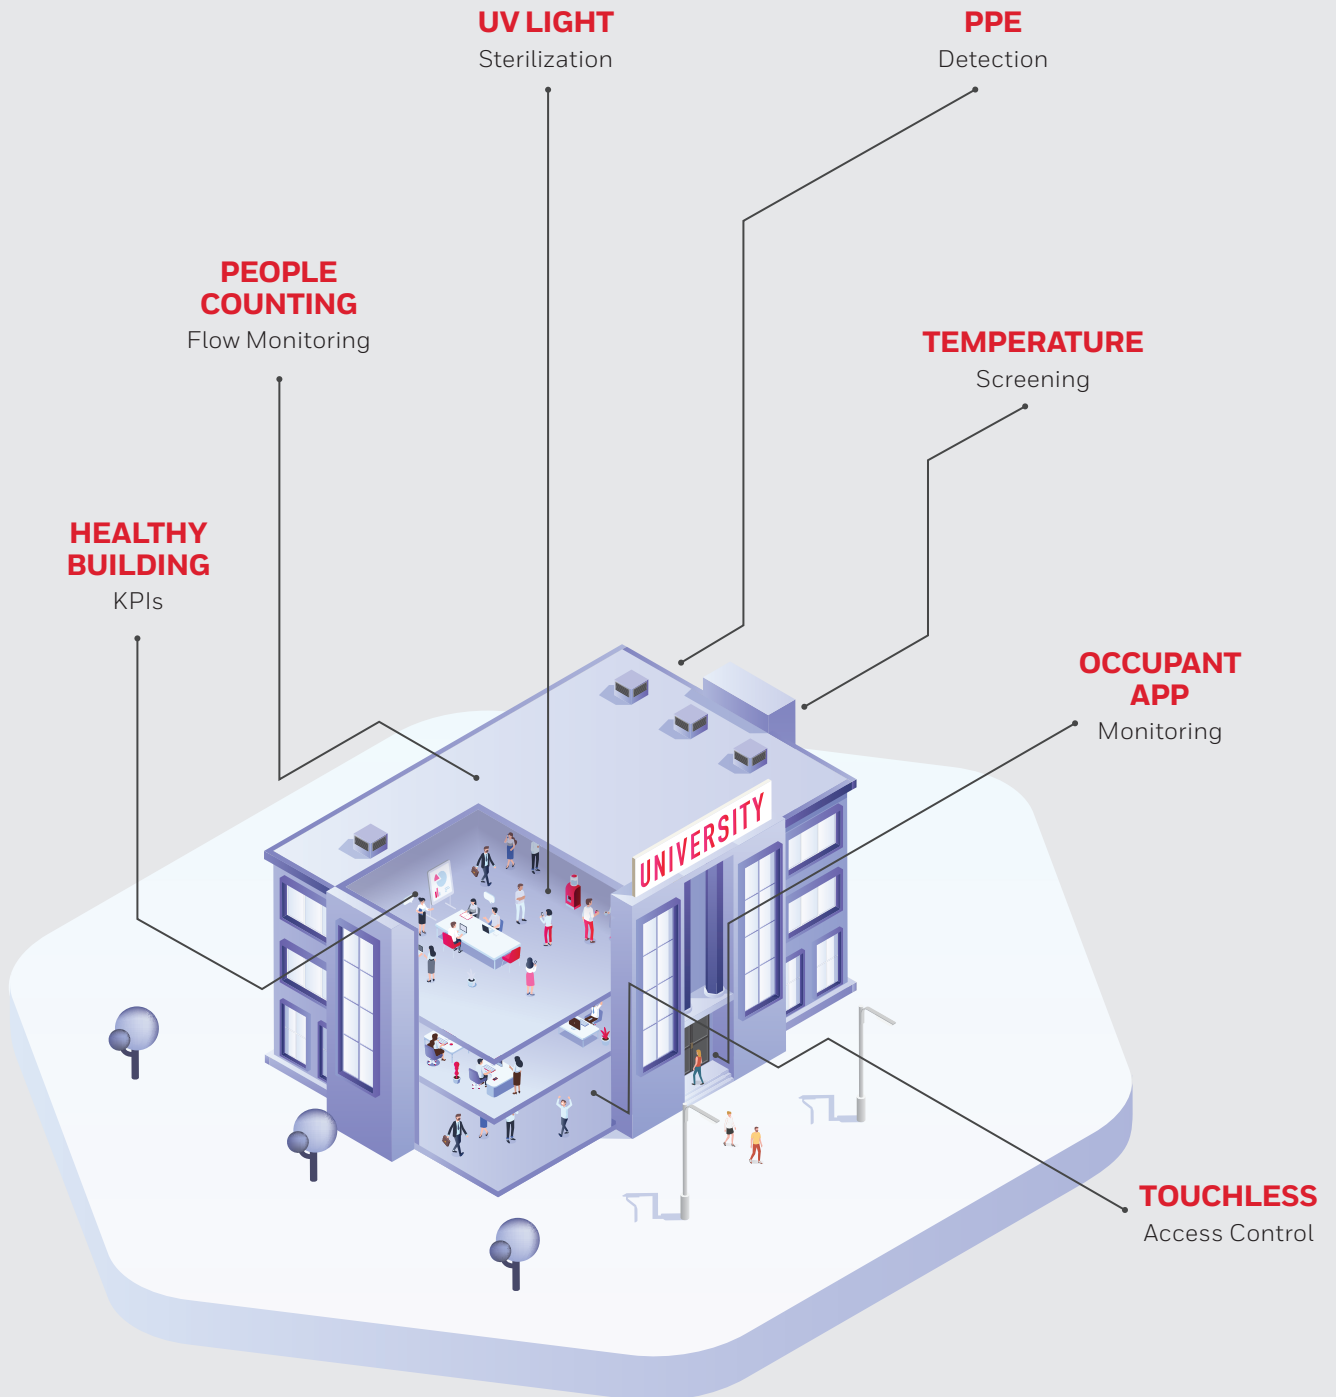

WHAT'S IN THE HEALTHY BUILDING SCORE?.

The Healthy Building Score is aggregated from a variety of data sources, such as:

INDOOR CLIMATE INDEX

HEALTHY BUILDING SCORE

SOCIAL DISTANCING AND CONTACT MONITORING

POLLUTANTS

CROWD SCREENING

SAFETY COMPLIANCE

AND MORE...

CAPTURE DATA
FROM EVERY SOURCE

UV LIGHT
Sterilization
