

HONEYWELL IN MALAYSIA

Connected, Integrated Technologies & Support,
Improving Performance & Reducing Costs

We bring together the physical and digital worlds to tackle some of the toughest business and societal challenges. We specialize in the things that are critically connected. Beyond smart phones and laptops, we make the connections that keep cities working, planes flying, factories running, and workers safe.

MAKING KL A MORE CONNECTED BUSINESS HUB...

Since establishing our ASEAN HQ in Kuala Lumpur in 2017, we have invested over \$500M and added 120+ executives to our staff. Further we have developed stronger partnerships with various key industry members including PETRONAS, KLIA, AirAsia, Malaysia Airlines, Citibank, MIDA, InvestKL, MIGHT and many more.

AERO

A new aftermarket HQ and a separate 21,000 square foot regional distribution center was established in Kuala Lumpur by the Honeywell **Aerospace** division in 2017. In addition, a 220,000 square foot manufacturing facility in Penang produces avionics systems with repair and overhaul operations for commercial, business, and military aircraft.

HBT

Honeywell's **Building Technologies** offers smart, versatile building automation systems to Malaysia's commercial buildings and airports. Local customers include Malaysian Airports, Universiti Teknologi PETRONAS and Citibank.

PMT

Honeywell's **Performance Materials and Technologies** provides engineering, design and fabrication services to Malaysia's gas processing and refining industries. The division, with a manufacturing facility in Penang, works with a local 'green energy' specialist Premium Renewable Energy converting palm biomass to heat and electricity. They are also researching the use of palm oil for sustainable jet fuel.

SPS

Honeywell's **Safety and Productivity Solutions** provides productivity and safety solutions for Malaysia's oil, gas, and petrochemical industries. Their customers include Shell, Murphy Oil and Exxon Mobil. The division's switches and sensors are used in the nation's medical and transportation industries. They have an electrical system manufacturing facility in Selangor.

OUR FOOTPRINT

1985

First Set-up Business

HEADQUARTERS

Kuala Lumpur

~1,200

Employees

Honeywell

~35,500+

covering various APAC operations

DEVELOPING THE NEXT MALAYSIAN GENERATION FOR A CONNECTED WORKFORCE

Beyond business, Honeywell Hometown Solutions is an award-winning organization that focuses on areas of vital importance to the communities we serve. Together with leading public and non-profit institutions, Honeywell has developed powerful programs including programs that help promote and increase awareness on the importance of Science, Technology, Engineering and Maths (STEM) as well as the exciting career opportunities it creates. Other initiatives include efforts focused on humanitarian relief, habitat, conservation, family safety and security.

APPLYING SCIENCE & MATH

Honeywell Educators at Space Academy has hosted more than 2,500 teachers from 55 countries and 50 U.S. states since 2004; including more than 15 from Malaysia.

BETTER FAMILY SAFETY & SECURITY

In 2017, Honeywell and Safe Kids Malaysia launched the Safe Kids at Home Program in Kuala Lumpur, Malaysia; reaching 6,000 students; endorsed by the Ministry of Wellbeing, Housing and Local Government.
