

# UNLOCK YOUR TEAM'S POTENTIAL WITH HONEYWELL OT CYBERSECURITY TRAINING

## Is your organization prepared for the growing cyber threats in industrial sectors?

One of the greatest challenges in OT cybersecurity is the shortage of skilled workers.

Honeywell's OT cybersecurity training services are designed to help you build cyber-aware teams and enhance the capabilities of your staff.

### What We Offer

#### ENHANCE SKILLS WITH OUR PURPOSE-BUILT TRAINING COURSES

Whether your team members are new to OT cybersecurity or seasoned professionals, our courses cater to all levels. Developed and delivered by industry specialists, our training is practical, relevant and designed to help train an organization's internal teams to meet the specific needs of industrial companies.

#### TAKE THE FIRST STEP: IDENTIFY SKILLS GAPS WITH OUR TRAINING NEEDS ASSESSMENT

Our OT cybersecurity specialists will help you pinpoint strengths and areas for improvement within your team. We'll provide a detailed report with actionable recommendations designed to help you improve so your team can be ready for any cybersecurity challenges.

#### FLEXIBLE LEARNING OPTIONS

##### Instructor-Led Training (ILT):

In-person sessions with trained instructors.

##### Virtual Instructor-Led Training (VILT):

Interactive online classes led by trained instructors.

##### Anytime Training (AT):

Self-paced online courses that fit your schedule.

#### CUSTOMIZED TRAINING SOLUTIONS

Need something more specific? We offer tailored training programs to help meet your organization's unique needs. Choose to train at a Honeywell facility or have our OT cybersecurity trainers visit your site. Start with our OT Cybersecurity Training Needs Assessment to see what options best fit your organizational needs.

#### WHY CHOOSE HONEYWELL TRAINING SERVICES?

A well-trained team is your best defense in today's ever-changing threat landscape. Honeywell's OT Cybersecurity Training Services are designed to empower your organization by boosting your team's knowledge and skills to help create a better prepared team to operate in the constantly-changing cybersecurity landscape.

### TAKE THE NEXT STEP

Transform your team's potential and help strengthen your organization's cybersecurity defenses with Honeywell's OT cybersecurity training.
